Assignment 3

Arrays

1. Write a program in C to read n number of values in an array and display them in reverse order.
2. Write a program in C to copy the elements of one array into another array.
3. Write a program in C to Remove Duplicate Elements from an Array.
Example: Input Array: 1,3,4,5,4,3,2,5,2
Output: 1,3,4,5,2
4. Write a program in C to separate Odd and Even numbers from an Array into two different Arrays.
Example: Input Array: 1, 4, 13, 6, 9, 11
Output: Odd: 1, 13, 9, 11 Even: 4, 6
5. Write a program in C to find maximum and minimum number of an array. Take Input from keyboard.
6. You are given an array of 0s and 1s in random order. Segregate 0s on left side and 1s on right side of the array.
7. Write a program in C to find the missing number in an array of numbers between 0 to 9 (there are no duplicates).
8. Write a program in C to check whether an array is a subset of another array.
